

## BAR + EVENT

*"I just love the brightness of the Arctic Grannys."*

*"These are perfect for our fall drinks. We have a few different martinis and things we add apples to."*

*"Good price and no work."*

*"These would be great for snacks and platters."*

## HOME CARE

## WHEN FOODSERVICE PROS TALK, WE LISTEN

Arctic® apples partnered with a national wholesale cash and carry foodservice supplier to understand how restaurateurs and other operators envision putting our apples to work.

*"A 28-day shelf life is really nice."*

- Slices maintain color, crispness & stay "orchard-fresh" for up to 28 days

- Pre-slicing eases labor, equipment & space constraints

- Competitive pricing makes switching easy & affordable

- Available pre-sliced or pre-diced in tart or sweet varieties

*"These are great... would save so much time on prep."*

## FINE DINING

### ABOUT ARCTIC APPLES

Arctic apples are, quite simply, the world's best-tasting sliced apples. Grown in our orchards in Washington State, Arctic apples maintain just picked freshness, flavor & color long after slicing.

Today, over 40% of apples are wasted, often due to superficial browning from bruising and slicing. That's why we developed Arctic apple varieties — we want more apples tasted and less apples wasted.

For professionals, this means Arctic apples are easier — and less expensive — to use. For customers, it means consistently delicious and attractive apples every time.
